Bikshapati C
Senior Product Designer

📍 Hyderabad, India

I'm a Sr. Product Designer with 8+ years of experience designing scalable web and mobile products. Strong expertise in UX strategy, interaction design, design systems, accessibility, and stakeholder collaboration. Proven ability to translate complex business requirements into intuitive user experiences and lead design execution across cross-functional teams. My experience spans

- **Product** - I apply renowned design principles, systematically test, and refine through iterative processes until the solution achieves optimal effectiveness
- **Visual** - I scour the internet for visual inspiration and meticulously blend these elements to craft my own distinctive creations
- **Motion** - I incorporate sophisticated motion techniques to elevate my designs, making them more compelling and visually intriguing

Work Experience

Antra Info Solutions Pvt. Ltd.
Dec 2025 - Present

Senior Product Designer

- Working on client projects delivering end-to-end UX solutions for web applications
- Collaborating with product managers, developers, and stakeholders to understand requirements
- Creating wireframes, prototypes, and UI designs aligned with business goals
- Supporting design handoff and ensuring design quality during development

Enspirit (EnterPi Software Solutions)
